RED DOT SIGHTS
FOR HUNTING & SPORT SHOOTING
PRODUCTS 2019
THE AIMPOINT PHILOSOPHY

When the time comes to take the shot, there should be no question that you can count on your sight to perform. We believe that a sight should simplify aiming while meeting the highest possible requirements for reliability and ruggedness.

We know that conditions in the field place extreme demands on your equipment, so we design and test Aimpoint products to stand up to any condition you are likely to encounter. We also design our products to operate constantly for years on a single battery so your sight will be ready when you are.
WHY AN AIMPOINT® RED DOT SIGHT?

To be successful, shooters must be able to aim accurately and quickly under a wide variety of conditions. On a shooting range, there is plenty of time to take aim, but in the real world everything is in fast motion. Add rough terrain, foul weather, poor light and high level of stress and even the most experienced hunter will be put to the test.

Tests have repeatedly proven that the single red dot reticule is the fastest on target in timed and rapid-fire close target exercises and also provides the greatest increase in hit probability with moving targets. Other aiming devices require that the shooter’s focus leaves the target or create limited situational awareness. Aimpoint red dot sights give you increased aiming confidence, allow you to remain on target and shoot with both eyes open, fully aware at all times.
Many great hunting opportunities happen suddenly, and you have to be ready when game appears. An Aimpoint® sight gives you a tremendous advantage. Aiming with both eyes open allows you to see the animal as well as the surroundings. You instinctively place the red dot on the game, and are ready to pull the trigger.

We design our sights to make you effective and extremely fast when you really need to be.
GET THE WHOLE PICTURE

extremely fast when you really need to be.

ready to pull the trigger.

to see the animal as well as the surroundings. You

advantage. Aiming with both eyes open allows you

and you have to be ready when game appears.

Many great hunting opportunities happen suddenly,
"I am very excited to utilize the new Aimpoint Micro H-2, 6 MOA in PCC competitions. The large dot is perfect for target acquisition in those close fast-moving situations."

Teemu Rintala
World Champion in both IPSC Rifle and Shotgun disciplines
ALL CONDITIONS — ANYWHERE

Aimpoint® sights work in all light conditions, from the darkness of the forest before dawn, to bright mountain sunlight. They are completely waterproof so you never have to worry about rain or immersion. Aimpoint sights are developed and tested to be used in any weather conditions, from the sub-zero temperatures of the Arctic to the heat and humidity of the tropics.

ON ANY TYPE OF FIREARM
Whether you have a rifle, shotgun, handgun, black powder rifle or bow, Aimpoint has a sight for you.

USER FRIENDLINESS
Aimpoint sights are very user friendly. Operated by a mechanical switch or pushbuttons, an Aimpoint sight can be easily and quickly changed to the right setting while simultaneously aiming.

ENVIRONMENTAL AWARENESS
At Aimpoint, we take great pride in making sure that neither hazardous nor radioactive materials are used in our sights.

Our mechanical switch and push buttons will not freeze and are easy to operate whether you are wearing gloves or not.

STANDARD FEATURES ON ALL AIMPOINT® SIGHTS
• Unlimited field of view
• Parallax-free
• Unlimited eye relief
• Operational in extreme weather conditions
• Extremely rugged, durable construction
• No hazardous materials
• No laser emission that could be harmful to your eyes
• Increased aiming confidence and hit probability
• Reduced training time and ammunition consumption
• Battery life measured in years
The Aimpoint® Acro C-1 was developed for use on pistols but the available adapter plates makes it an allround sight for a number of weapon platforms. This robust sight is the smallest enclosed red dot system on the market.

- **Item No**: 200548
- **Dot size**: 3.5 MOA
- **Battery life**: More than 1,5 years of use on setting 6
- **Battery type**: One 3V lithium CR1225 battery
- **Power switch**: Push button
- **Weight (sight only)**: 60 g

Tested with a minimum of 20,000 rounds on a .40 cal pistol slide, this small optic has proven to lead in ruggedness and reliability. It is a lightweight, low-profile optic that provides fast target acquisition and an unlimited field of view for hunters as well as sport shooters. The enclosed system makes it reliable and operational in any weather conditions.

EXAMPLES OF MOUNTING SOLUTIONS

The different adapter plates available make it possible to mount the Acro C-1 on several weapon platforms used by sport shooters as well as hunters. For more Acro mounting solutions adapted for specific weapon types see page 20.

Acro QD Mount 22 mm
Quick Detachable Mount for Acro sights. Raises height of optical axis to 22 mm. Fits on Weaver and Picatinny rail.
Item. No. 200517

Acro QD Mount 30 mm
Quick Detachable Mount for Acro sights. Raises height of optical axis to 30 mm. Fits on Weaver and Picatinny rail.
Item. No. 200518

Acro QD Mount 39 mm
Lever Release Mount for Quick Detachable Mount for Acro sights. Raises height of optical axis to 39 mm. Fits on Weaver and Picatinny rail.
Item. No. 200519

Acro Adapter Plate for Micro Interface
The Acro adapter plate allows for compatibility with all Micro sights mounting solutions.
Item. No. 200526
Since its introduction the Aimpoint® Micro sight has become the worldwide standard for compact reflex sight. Hunters have embraced this sight for its compact size, durability, and extremely long battery life.

**MICRO™ SERIES SIGHTS**

With all of the ruggedness that has made Aimpoint® sights famous all over the world, Aimpoint Micro series sights are able to withstand the toughest conditions while adding negligible weight to your firearm. Shotguns, rifles, handguns or archery, these sights can do it all!

The Micro H-2 is a result of feedback coming from hard core customers desiring an even more hard core Micro sight. With a redesigned and reinforced house body, as well as flip-up covers protecting the lenses, the Micro H-2 can withstand all types of environmental conditions. And thanks to new optical lenses and cutting edge lens coatings, the optical performance and the shape and clarity of the red dot are radically improved.

The two attachment points lead to a solid and professional mount for the most demanding hunters. The Aimpoint® Micro H-2 2 MOA and Tikka T3 low mount are sold as a kit. The mount can also be bought separately.
This mount utilizes both of the mounting points featured on Blaser rifle barrels. Quick detach levers allow this sight to be mounted and dismounted quickly, and without loss of zero. This mount fits on all Blaser guns with the Blaser saddle mount interface. The sight and mount are sold as a complete kit only.

The quick mounting using two levers, makes it possible to swiftly dismount and remount without the accuracy being affected. The mount is suitable for all Leupold QR bases with two anchor points. The Aimpoint® Micro H-2 2 MOA and the mount for Leupold QR rail are sold as a kit. The mount can also be bought separately.

The Sauer 404 mount for the Micro series can be quickly mounted and dismounted without any influence on settings or accuracy. The Aimpoint® Micro H-2 2MOA and the Sauer 404 Mount for the Micro series are sold as a complete kit only.

### Item No 200223
- **Dot size:** 2 MOA
- **Battery life:** 50 000 h
- **Battery type:** CR2032 (3 V)
- **Weight (incl. mount):** 143 g / 5.0 oz
- **Power switch:** Rotary switch
- **Mounting:**
  - Browning Bar/Maral
  - Winchester STX
  - Benelli ARGO

The Micro™ mount for the most common semi-automatic rifles (Browning Bar, Maral, Winchester STX, Benelli ARGO) is attached directly to the action. The Aimpoint® Micro H-2 2MOA and the Micro mount for semi-automatic rifles are sold as a kit. The mount can also be bought separately.

### Item No 200253
- **Dot size:** 2 MOA
- **Battery life:** 50 000 h
- **Battery type:** CR2032 (3 V)
- **Weight (incl. mount):** 142 g / 5.0 oz
- **Power switch:** Rotary switch
- **Mounting:**
  - Browning Bar/Maral
  - Winchester STX
  - Benelli ARGO

The Micro™ mount for semi-automatic shotguns is attached on the rifle with dovetail (11.0–13.0 mm). The mount uses double anchor points. It is extremely robust and a high-grade product. The Aimpoint® Micro H-2 2MOA and the Micro mount for semi-automatic shotguns are sold as a kit. The mount can also be bought separately.

### Item No 200254
- **Dot size:** 4 MOA
- **Battery life:** 50 000 h
- **Battery type:** CR2032 (3 V)
- **Weight (incl. mount):** 142 g / 5.0 oz
- **Power switch:** Rotary switch
- **Mounting:** Dovetail (11–13 mm)

The Micro™ mount for semi-automatic shotguns is attached on the rifle with dovetail (11.0–13.0 mm). The mount uses double anchor points. It is extremely robust and a high-grade product. The Aimpoint® Micro H-2 2MOA and the Micro mount for semi-automatic shotguns are sold as a kit. The mount can also be bought separately.

The Sauer 404 mount for the Micro series can be quickly mounted and dismounted without any influence on settings or accuracy. The Aimpoint® Micro H-2 2MOA and the Sauer 404 Mount for the Micro series are sold as a complete kit only.

Accessories & mounts info on page 17-20.
The Aimpoint® Micro H-1 was designed with the hunter in mind. This was the first generation sight in the popular Aimpoint® Micro series.

**MICRO H-1™**

- Item No: 200018 (2 MOA), 11910 (4 MOA)
- Dot size: 2 MOA / 4 MOA
- Battery life: 50 000 h
- Battery type: CR2032 (3V)
- Weight (incl. mount): 114 g / 4.0 oz
- Power switch: Rotary switch
- Mounting: Picatinny/Weaver

The Micro series sights can be mounted onto a magnified scope with an adapter to hunt at both long and short distances.

The Aimpoint® Micro S-1 was designed specifically for use on shotguns. It attaches directly to the shotgun at any point along the ventilated rib. Interchangeable adapter plates are included to accommodate most popular shotgun rib sizes. It provides a compact, low-profile optic for shotgun hunters. The big, bright 6 MOA red dot provides an optimal combination of target acquisition speed and visibility. The Micro S-1 greatly enhances hit percentage for hunters, as well as on the sporting clays course.

**MICRO S-1™**

- Item No: 200369
- Dot size: 6 MOA
- Battery life: 50 000 h
- Battery type: CR2032 (3V)
- Weight (incl. mount): 100 g / 3.5 oz
- Power switch: Rotary switch
- Mounting: Integrated mount for ventilated rib
The Aimpoint® Hunter series offers an exceptional optical performance and incorporates the latest technology from Aimpoint. Its design is similar to a traditional magnifying scope and is appreciated by many hunters. The Hunter series is available in 4 different versions. The length of the action of your rifle will determine if you need a long or short version. For an even better optical experience, the 34 mm versions would be the sight we recommend.

**H34L™**

<table>
<thead>

Not included
Since the introduction, market response to Aimpoint 9000 series sights has been very positive. The 9000 series’ ability to offer a combination of a high quality optic at an affordable price has kept this sight in high demand. The 9000 series is available in three different versions. The length of the action of your rifle will determine if you need a long or short version.

**9000L™**

</table>

This is the same sight as the 9000SC, but it is compatible with night vision devices (NVD). The first four intensity settings are for use with a night vision device. This means that the dot is not visible for the naked eye. Through the night vision equipment, the red dot becomes white and can be used as usual.
The Aimpoint® CompC3 is designed to be used whenever you need a compact sight with a 30 mm tube diameter. This sight belongs to the Comp series, a very popular series of sights for the professional market. The CompC3 is a civilian sight mostly used on scout rifles, bows, carbines and competition pistols.

### COMPC3™

- **Item No**: 11421
- **Dot size**: 2 MOA
- **Battery life**: 50,000 h
- **Battery type**: DL1/3N (3 V)
- **Tube diameter**: 30 mm
- **Weight (incl. mount)**: 259 g / 9.1 oz
- **Power switch**: Rotary switch
- **Mounting**: Picatinny/Weaver

### COMPC3™ WITH MOUNT FOR SEMI-AUTOMATIC RIFLES

- **Item No**: 200245
- **Dot size**: 2 MOA
- **Battery life**: 50,000 h
- **Battery type**: DL1/3N (3 V)
- **Tube diameter**: 30 mm
- **Weight (incl. mount)**: 280 g / 9.9 oz
- **Power Switch**: Rotary Switch
- **Mounting**: Browning Bar/Maral, Winchester STX, Benelli ARGO

The CompC3™ mount for semi-automatic rifles (Browning Bar/Maral, Winchester STX, Benelli ARGO) is attached directly to the action. The Aimpoint® CompC3 2MOA and the CompC3 mount for semi-automatic rifles are sold as a kit. The mount can also be bought separately.

The Aimpoint® 3X-C is optimized for the Micro™ series, for long-range aiming or observation. A variable (-2 to +2) dioptic setting allows this magnifier to be adapted to the individual shooter’s eye. The 3X-C can also be used as a handheld 3X monocular. It is mounted behind the sight and utilizes the red dot in Aimpoint sights as the aiming reticle, eliminating the need for re-zeroing when shifting between non-magnified and magnified aiming.

3X-C™

In order to mount the 3X-C you need: FlipMount and TwistMount base to be mounted on a Picatinny rail. To get the same optical axis as the magnifier you need a 30 or 39mm spacer for the Micro sight.

Item No 200273
Magnification 3x
Field of view 6°
Length 103 mm / 4.1 in
Weight (excl. mount) 220 g / 7.8 oz

For mounting Acro sights on optic ready Silencerco Maxim 9 handguns. Item no. 200580

New plates will come, for updated information please see www.aimpoint.com
Aimpoint red dot sights are designed for the user to easily adjust the intensity of the red dot to accommodate different lighting conditions, from dusk till dawn. Adjusting the intensity can result in an apparent change of the size of the red dot. Some shooters prefer to increase the intensity of the red dot in a situation where fast moving targets require extremely fast target acquisition. Similarly, decreasing the intensity can make the red dot appear smaller and provide better precision for longer shots.

2 MOA
The small dot does not obscure the target, even if the target is compact and far away. If necessary, you can increase the intensity to over expose the dot, making it look little bit bigger. The target will be easy to see.

4 MOA
The 4 MOA red dot offers a perfect balance between the ability for close-up shots as well as engaging targets at a distance with maintained precision. The 4 MOA red dot could also be a solution if you have difficulties with seeing the smaller 2 MOA dot as round.

6 MOA
For close and fast moving targets where the shooter might only get a split second to line up a shot, the 6 MOA dot is the optimal choice. The dot is big, bright, and easy to find encouraging fast target acquisition every time. Perfect for IPSC disciplines, dog handlers, etc.

**HOW MUCH DOES THE RED DOT COVER AT CERTAIN DISTANCES?**
1 MOA = 3 cm at 100 meters.

WARRANTY INFORMATION

Aimpoint values your business and always attempts to provide you the very best of products and services. That’s why we back our products with one of the best guarantees in the industry. Our products are guaranteed to be free from original manufacturer defects in material and/or workmanship under normal use from the date of purchase for ten (10) years for personal use and two (2) years for professional or competition use.

CUSTOMER SERVICE & DEALERSHIP ELIGIBILITY

For dealership eligibility and information about customer service, please scan the code or follow the link.

---

**BATTERY LIFE**

A: 50 000 hours at daylight setting 8 (room temperature).
B: 50 000 hours at daylight setting 7 (room temperature).

**DOT SIZE (MOA)**

MOA (minute of angle) 1 MOA ≈ 30 mm at 100 meters ≈ 1 in at 100 yards.

1. If double anchor points are used the optics must be mounted using two heavy duty steel mounting rings and a solid one piece mounting base designed specifically for use with these revolvers.
2. OU = Over and under
3. SA = Semi-automatic

### FEATURES FOR ALL AIMPOINT RED DOT SIGHTS

#### TECHNOLOGY
- ACET (Advanced Circuit Efficiency Technology)
- Working principle: Reflex collimator sight - red dot sight

#### OPTICAL DATA
- LED (Light Emitting Diode) totally eye-safe
- Light source wave length, 650 nm red light
- Parallax free - No centering required
- Unlimited eye relief
- Anti-reflex coating all surfaces & multi-layer coating objective lens
- No magnification (1X)

#### MECHANICAL DATA
- Material housing and tube, high strength aluminium
- Surface finish housing, anodized, semi-matte
- Black color housing

#### ENVIRONMENTAL DATA
- Temperature range: -30° to +60°C (-22° to +140°F)
- Fully waterproof
- No radioactive material used
- No laser emission

Specifications are subject to change without notice.
FOR SPEED, ACCURACY AND RELIABILITY

In summary, Aimpoint’s breakthrough technology allows you to do what comes naturally - shoot with both eyes open while remaining focused on the target. Instinctively place the red dot on the game, and you are ready to pull the trigger.

Get on target fast, and forget about being challenged by poor weather conditions, bad light, or moving targets. It is this inherent combination of simplicity, speed, accuracy, and reliability that makes Aimpoint® sights the preferred choice for beginners and experts alike.
