WHO WE ARE

WE HAVE ONE SIMPLE GOAL: TO PUT AN OLIGHT IN AS MANY PEOPLE’S HANDS AS POSSIBLE.

Why? Because we believe that no one should be left in the dark period. We believe that everyone should have a good illumination source when it matters most. We care about every little detail from brightness to runtime to ergonomics, size and weight - and most importantly, how we can improve your life with light. We want to push our products to the limit so that we can give you the best lights in the smallest package possible for the best price so you have the right tools to conquer the night.

We are a global technology-driven lighting company filled with dedicated people who want to provide the best for our customers. We are outdoorsmen, sportsmen, veterans, and DIY go-getters - we are you. We use our own products everyday to make sure we practice what we preach. It keeps us honest. We want to give you quality design and functionality that really works when you need it to. We are just a group of people looking to change the world one light at a time. And we want you to be a part of it.
